

Due to rising Covid-19 case counts in King County, all team members and clients will be required to wear a mask, regardless of vaccination status.

Ongoing Covid-19 prevention:

- All team members are fully vaccinated.
- Clients wash hands before and after treatment.
- Clients and employees stay home if they are ill. If mostly recovered, but still have mild coughing or congestion, they may return to work, but double masking is advised.
- Cleaning of all surfaces between treatments with Protex.
- Use of air filters that clean the air in our treatment rooms and small studio spaces 5x/hour down to .3 microns.
- Urging all community members to get vaccinated.
- Clients and employees who travel internationally must take a Covid PCR test 5 (or more) days after return flight and provide us with their negative test result before returning to the clinic for in person care OR they may wait 10 days to return for in person care without a test. Our preference, for the safety of our community and our team is that international travelers get tested and provide us with the negative test result.
- Continue to update policies based on guidance from the CDC and local government.

Please contact Elizabeth Rogers directly with any questions or concerns. She is available via clinic phone (206-535-7356) and email ([elizabeth@elizabethrogerspt.com](mailto:elizabeth@elizabethrogerspt.com)).
